

Erix Logan BIO e CV

Strong of his dual Italian and Canadian citizenship, Erix Logan has brought his show in 50 countries in 30 years and yet he doesn't stop to research new unexplored ways in the universe of magic.

He has created many original illusions which have granted him several international awards (3 times winner of Mandrakes D'Or , Trophée Robert Houdin , Milbourne Christopher Award by Society of American Magicians , Joseph Frölich-Preis, Prix Jury Jr. Monte-Carlo Magic Stars)

Since 1996 he has been a performer at the world's famous Magic Castle in Hollywood.

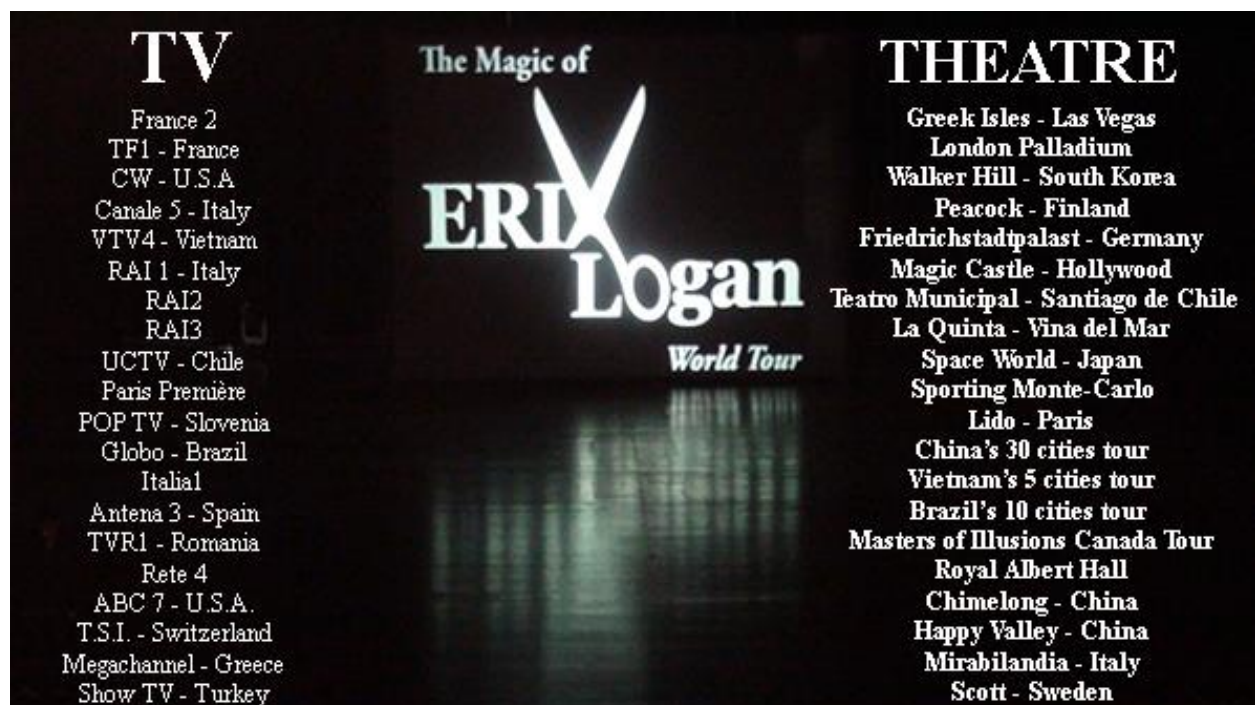

The main value of Logan doesn't rely in the grand illusions he presents, although they are highly spectacular, but in the empathic relationship that he builds with the audience, through a connection which flows into emotions and a sense of poetry.

Together with Sara Maya, his partner in real life and on stage as the "Visual Singer", they are active in the fields of theatre, television, special and corporate events (see list below).

At present, Erix Logan embodies a unique role in the history of magic as The Disillusionist™, redefining magic and illusions through an innovative vision and a thoughtful exploration of the thin line between reality and illusion.
